

## DESCRIPTION

The BUBBLE WRAP<sup>®</sup> Brand Universal Inflation System is a versatile, all-in-one solution for inflating a range of BUBBLE WRAP<sup>®</sup> brand materials, including inflatable cushioning and air pillows, with just one piece of equipment. Ready to use from day one, this plug-and-play system features a user-friendly interface that requires minimal training. Its smart technology automatically configures settings based on the loaded material, eliminating operator error. The compact, lightweight design occupies half the space of other systems and operates up to 20% quieter, making it ideal for various packing environments. With speeds of up to 80 linear feet per minute, the system ensures maximum throughput and efficiency. Additionally, it is CSA, CE, PSE, and FCC certified, guaranteeing top safety and quality standards.

## KEY BENEFITS

Operational  
Efficiency

- Ready to use on day one with a plug-and-play system.
- Simple user interface requiring minimal training for operators.
- Preventive maintenance alerts for timely servicing.
- Produces cushioning at speeds up to 80 linear feet per minute, reducing downtime and increasing throughput.
- Small footprint design, saving space and fitting easily into workstations.
- 53% lighter and up to 20% quieter than other competitive systems.

Product  
Integrity

- Absorbs shocks and impacts during transit, preventing product damage.
- Ensures each cushioning unit is correctly inflated, reducing deflation risk.
- Creates cushioning tailored to various product shapes and sizes, minimizing movement.
- High quality films resist punctures and tears, maintaining protection throughout shipping.

Package  
Optimization

- Capable of running a multitude of material types for void fill, cushioning, or wrapping applications.
- Effortlessly switch from one material type to another based on operational needs.
- Ideal for various packing environments, from ship-from-store to e-commerce fulfillment centers.

## TECHNICAL DATA

BUBBLE WRAP <sup>®</sup> BRAND UNIVERSAL INFLATION SYSTEM	
DIMENSIONS: (BASE SYSTEM WITHOUT STAND(S) OR WINDER)	17 1/8 in L x 14 1/8 in W x 14.5 in H
WEIGHT:	31 lbs.
ELECTRICAL POWER CONSUMPTION:	1800 Watts (VA) max
SYSTEM ACCESSORIES:	Foot switch

## COMPATIBLE MATERIALS

- Inflatable cushioning
- Air pillows
