

Korrvu® Select

Solutions To Suit
Your Needs

Korrvu® Select

Highly Versatile Packaging Solution

Sealed Air has been a leader in protective packaging for over fifty years. Our success is a direct result of our ability to balance our capabilities with customers' packaging needs and environmental responsibility. We constantly strive to improve the environmental profile of our products, without compromising their performance.

Korrvu® Select packaging provides proven product protection and maximum versatility in a range of sizes and easy to use solutions featuring Korrvu® Retention, Korrvu® Suspension and Korrvu® Lok™ packaging designs. The Korrvu® Select program offers a fast, effective, high performance solution that meets the packaging demands of a variety of products and packaging applications. No minimum order quantity, no setup fees or additional equipment required.

Korrvu® Select packaging offers the potential for source reduction and eliminates the need for additional void filling or wrapping. It is a dynamic packaging product that uses a strong, highly-resilient low-slip film to surround your products, protecting them from shock and vibration by ensuring your product holds centre place inside the box.

The Markets We Serve:

Our approach to the markets we serve is to offer an optimum solution using minimum packaging materials with the maximum protection.

Reduce, Re-use and Recycle

Korrvu® packaging is manufactured using a corrugated fibreboard frame and can be easily recycled in the corrugated waste stream worldwide.

Korrvu® packaging can be recycled with the film left in place. Korrvu® packaging is RESY approved for recycling in Germany and complies with all national and international requirements and mandates for disposal and recycling of packaging materials.

Korrvu® Select helps our customers package their items more efficiently, reducing damage and cube to reduce cost and time.

Damage Reduction: Korrvu® innovative solutions delivers high performance protection through the entire shipping journey.

Cube Optimization: Korrvu® achieves the perfect balance of minimal packaging material and peak performance for maximum efficiency.

Fulfillment velocity: Korrvu® Select is shipped flat and assembled on-site, as needed.

Customer Experience: Korrvu® packaging's transparent film enables your package to serve as both a protective shipper and an effective display merchandiser. The tough and resilient film retains its effectiveness for return shipments and multiple uses - enhancing your customer experience.

KORRVU® LOK™

Korrvu® Lok™ is a brand new solution that creates an attractive, 100% recyclable package that showcases the item purchased while providing superior protection against damage and theft.

Product Code	SAP Code	Insert/Inbox Dimensions (mm)	Maximum Product Size (mm)	Maximum Product Weight (kg)
